You cannot be in a positive and a negative state. On the positive side, everything is good, and you feel wonderful. You live easily, are satisfied with everything and are happy. When a negative state is expressed, it means that you "lost your way". There may be negative situations and difficulties in life. As soon as you go back to positivity, troubles end and life gets better.

Talents from God

Wise (9)

You are a discoverer of secret knowledge, sage. Philosophy, psychology, esotericism, history - those sciences where you will surely succeed. You don't have to study long for this. Even after reading a few phrases from the book, you may have an insight, a concept of the universe. You are whole, wise and self-sufficient. This is what allows you to lead a secluded lifestyle harmoniously. But you shouldn't do that. It is very important to transfer knowledge to the world, otherwise the talent will remain unrealized. Thanks to the ability to create integrity around you, you can heal people and even space. Studying a person's past experience, you show the other side of their mistakes, allow them to realize that this experience was useful and for what it was needed. Thus, you restore integrity to the person and heal them. Talents are realized through teaching, but not too many people at once, but from hand to hand, to a limited number of followers. They are unhurried and selective in creating relationships. The partnerships you create with care are often created forever.

Justice (8)

You have a profound ability to control people, processes, even the powers of nature through consciousness. Intuitively familiar with Divine laws, you understand cause-effect and karmic relationships. A keen sense of justice is another of your talents. You are able to see the relationship of various events.

You have an organizational talent and are able to coordinate processes involving a huge number of people. The ability to present yourself favorably is your special ability. You do it beautifully and brightly. You will succeed in numerology, astrology, any areas related to karma.

You have one of the most interesting talents. You are able to feel the energy of huge masses of people and transfer it to others. This talent is best revealed on stage. Catching the mood and energy of others, you process it creatively and send it to the masses. You have a unique destiny that is an example for others. Your life will become a model for others, and the model can be both positive and negative. What is not forgiven to many, is forgiven to you, because your life will be educational material for thousands of people. Others will learn from your mistakes and your ups. Sexuality and charisma make you irresistibly attractive. Another interesting feature is the ability to create beauty from incompatible. You are one of those people who create new, unusual musical directions or artistic movements. Demonstration, the desire to be seen, to be known- this is one of the sides of talent. The life of an inconspicuous mousy person is not for you.

Pride is what can get in the way of your self-realization. It is important not to wait for everything to fall from the sky, but to go the way to recognition, no matter how difficult it is.

You are capable of ruling destiny. And not only your own, but others. You can change the reality of people and events. The ability to be in the flow allows you to manage luck. You are the person who is always lucky, and even those around you are lucky.

Next to you, others will be able to embark on the path of their destiny, change their destiny, and catch a lucky star. Such a talent must be realized. You always know when, where and with whom to go to get the desired result. You magically feel your happy flow and thanks to it you find yourself at the right time, in the right place. You shouldn't work from nine to five o'clock. With this kind of work, luck simply cannot meet you. Freelance, unusual pursuits are for you. It is very important to trust the universe and Divine energy completely.

What will prevent your talents from being realized? This is obsession with money, hard work. The word "debt" is contraindicated for you.

Your gift is mercy, the ability to serve for the good of others. You are a born psychologist, you understand other people, help find their way. Thanks to the ability to share energy, you can carry out bodily practices and lead other people to spirituality. Yoga classes, body therapy, holotropic breathing will help you in self-realization. For unconditional love for people, you are given all the benefits. You can also discover musical abilities in yourself.

For realization, you cannot use the position of "sacrifice"; your service should be sincere and selfless. If service is not selfless, others will feel it and the realization will not take place.

(13) Your life purpose is to discover new things and help yourself and others to reject everything old and obsolete. You can meet people at the right time, find everything extra and unnecessary, and create conscious transformations and changes in the system for its better work. The most suitable professional field for you is education, progress through partial destruction, which can be linked to travelling, continuous movement, exploration of new projects. If you stay in one place and do not implement your potential, life will make you go

from one extreme to another. A rejection of the destiny leads to the loss of a life meaning, natural manifestations of changing cycles (including everything new and aging), inactivity in life, aimlessness and boring existence, stagnation in the soul, relationships, and work.

- (22) The main role in your life is the role of a free individual, belonging to the whole world, realizing your creative talents, being open to everything new and enjoying yourself easily like a child. You should travel a lot, refuse any restrictions and not attach to anything. In the worst-case scenario, your life will be dull and empty and will not satisfy anything. Achieving prosperity in one place will not be possible. A variety of problems can arise due to your pragmatic and narrow view of life, inner fears and restrictions, unimplemented talents. These can include various forms of addictions to severe diseases, because of which you will not even be able to go outside the room.
- (8) According to your life purpose you need to understand the global cause-and-effect relationships of events and actions. At the same time, you should transfer personal experience and knowledge in this area to others. It is important that you comply with the rules of society and understand the universal spiritual and moral laws. You need to learn to take responsibility for your life and not blame others for the failures due to incorrect parental attitudes and upbringing. You will have to become a fair and caring leader of your family, showing wisdom in attitude towards the others. If the ability to analyze the important laws of justice and life makeup is not implemented, you may begin to fall into conflict and situations involving fighting for justice. There may be legal proceedings, including even the ones with family members. You will look for the truth through the laws. Still, it will be difficult for you to find it in simple logical solutions, since the questions will be ambiguous and beyond the usual understanding of legality and the court.

Destiny Common

(15) You should try to share important information, coming from above, through creativity (including a verbal one). It is welcomed to work with styling, therefore, implementing all creative opportunities. If the talent and abilities are not used, there might be isolation from society. (3) To achieve financial wellbeing, it is worth for you to accumulate a specialty in the field of allocating resources, create harmony and beauty (including everything related to fashion, image, appearance) or heal. Success will also come to you from professions related to children starting from maternity care to teaching and educating people. You have a harmony in areas, including animal farming and agriculture, creating home comfort and housekeeping. You should try yourself in business, administration, management. It is crucial to implement your leadership not authoritatively but gently and diplomatically. You must evaluate the work and dignity of employed specialists. A field where most of the customers are women will bring you a significant income. The management of a predominantly female team will also develop well.

(6) The appearance of the second half means a lot to you. They should be distinguished by their attractiveness, always look after their body and face, dress up stylishly. Therefore, the choice favors a friendly and determined person who can be a real shopaholic with unlimited spending. The partner always has to prove their love because you have certain dongs whether the choice made is the right one and the relationships are serious enough. Hence you desire to get more tactile contact and touches than the partner gives.

(12) An incredibly kind and sincere person who is capable of broad gestures should be near you. Such a personality has an open heart and can give mutual understanding and help many people at once. This person may do charity and volunteer activities. They are lovely mentors to whom people can always turn for help. They love children a lot. They prefer to work with people and social action (a doctor, a massage therapist, a psychologist, etc.).

(21) You will only be genuinely interested in a partner who is able to see the situation distantly and argue philosophically, has excellent knowledge and global thinking. They may perhaps be representatives of another country and different cultures. At the same time, there is a tendency to live easily and travel a lot. There are no boundaries and attachments, yet there is the ability to live in any place in the world due to the breadth of thinking and modesty of everyday needs. Closer to a respectable age, such a partner can renounce worldly comfort and become a church minister.

(3) Your most important traits are the strive for implementing your purpose, being wealthy and generous, successful in society and wise in the family. It is better to take care of loved ones without obsession and authoritativeness. You can indeed show your skills of creating a harmonious and beautiful surrounding space, take care of the house, but at the same time not only to take on routine household chores. It is helpful to split

some tasks with other family members. You will have to let go of unnecessary care and concern for your relatives, give them an opportunity to develop independently and make decisions in your life. At the same time, you have to support the family and always be ready to give valuable advice. It is necessary to treat people equally, regardless of their status and financial situation. It is useful to learn not to cling too much to material things and not to chase success. At the right time, success will come by itself, thanks to talents and perseverance.

(5) This time is suitable for the most focus on family and loved ones. It is a favorable period for marriage, the birth of children. Relatives may need your help, and it is possible to solve some family issues and establish new traditions in the family. At the same time, it is necessary to maintain a balance in relationships and interaction with relatives. You should not get too attached to relatives (older or younger ones), living their lives, putting yourself in the position of a victim or overprotecting. Grown-up children will have to be allowed to have an independent life. It is important to maintain healthy, respectful relationships with elders in the family, providing attention and care, yet live your life and act according to your own understanding, based on your formed system of internal values.

This period is characterized by prioritizing things. You may want to organize things both literally (in everyday life) and in different spheres of life. Act virtuously, maintaining order not only in the house but also emotionally, in your thoughts. Try not to be late and generally take the resources of (your own and someone else's) time more seriously, it is useful to follow the daily routine and systematize your life, organize everything.

Training and self-improvement will be useful in both personal and professional spheres. It is good to attend courses, get new knowledge and use it in practice. It is important not only to accumulate knowledge but also to share it.

Special attention should be paid to papers and official documents. You will have to check their correctness.
